COLORADO RIVER COMMISSION
OF NEVADA

Unclassified Position Announcement

Power Facilities Electrician

The Colorado River Commission of Nevada is seeking qualified applicants for the position of Power Facilities Electrician for the Power Delivery Project Group. This is an unclassified full-time position within Nevada State Government.

Recruitment: Open to all qualified candidates, vacancy in Las Vegas, Nevada.

Salary: Depending on experience, starting at \$50,000.00 to \$77,591.00/year. Salary range reflects retirement (PERS) contributions by both the employee and employer. An employer paid contributions plan is also available with a reduced gross salary.

{Please note: Furlough leave is mandatory for Nevada State employees and will result in a reduction of income of approximately 2.3% (or six furlough days per fiscal year) through June 30, 2015. The Salary listed above does not reflect the reduction from the required furlough.}

Applications Will Be Accepted Until: September 27, 2013.

The Position

The Colorado River Commission of Nevada (Commission) is seeking a Power Facilities Electrician.

Job Description

The Power Facilities Electrician (PFE) performs operation and maintenance task related to Commission's high-voltage transmission and distribution system. The PFE is expected to perform at a journeyman level, capable of completing routine electrical and substation maintenance tasks with moderate direct supervision. The PFE is expected to work independently on routine tasks and in conjunction with the Power Facilities Manager and/or the Senior Power Facilities Electrician on complex tasks.

The Power Facilities Electrician's primary job functions:

- Responsible for the Power Delivery Project electric maintenance functions including responsibility to perform routine maintenance of equipment and tools; perform routine maintenance of fleet equipment; perform routine building maintenance and including custodial duties, such as HVAC maintenance, lighting maintenance, painting, and cleaning; perform equipment, facility and system maintenance programs and instructions, including preventative maintenance checks and inspections; assist with routine equipment maintenance projects, such as oil degasification, fan and motor replacements, gasket replacements, panel wiring, yard maintenance, and equipment cleaning and painting; assist with major equipment overhaul and replacement projects, such as bushing replacements, arrester replacements, and equipment contact replacements; and respond to system emergencies and unscheduled outages.
- Carryout standard operating procedures for equipment, facilities, and systems.
- Comply with Commission's facility clearance and switching policies.
- Carryout equipment, facility and system energization programs.
- Maintain certified switchman status and conduct switching as necessary.
- Advise and provide recommendations to the PFM regarding safe work practices and procedures.
- Perform all work in a safe manner and in strict compliance with Commission's high-voltage transmission and distribution safety program.
- Perform quality assurance and safety inspections of contractor-performed work, including both capital projects and maintenance contracts, occurring at Commission substation and transmission line facilities.

Minimum Qualifications:

High school diploma and completion of a certified high-voltage substation electrician or lineman apprenticeship program provided by a college, utility, or trade union.

Must have knowledge of principles of electricity, characteristics of electrical AC and DC circuits, the connections of electrical apparatus, equipment, and circuits and their functions; and methods of calculation of resistance, volts, amps, and watts. Additional knowledge may be required for the position based on scope of the project as it develops.

Submit a letter of interest and résumé to:
Judy Atwood
Office Manager
Colorado River Commission of Nevada
555 E. Washington Avenue, Suite 3100
Las Vegas, NV 89101

E-mail submissions will be accepted and should be sent to:
